

# ***RADIANCE AGAINST WAR***

At the demonstration last evening  
driving by with her friend  
on the way to exercise  
she came back and joined us

Using her body for a placard  
waving her arms  
two fingers for peace  
she leaned into the street  
catching drivers eyes

The honking increased  
and we connected  
with those whizzing by  
all smiles and thumbs up
